| Redragon Beige Pink Magnetic |          |
|------------------------------|----------|
| Switch Type: Linear          | Outemu   |
| Total Stem Travel            | 4.035 mm |
| Peak Force                   | 112.8 gf |
| Bottom Out Force             | 100.1 gf |
| # of Upstroke Points         | 1066     |
| # of Downstroke Points       | 1080     |

### Testing Notes

- This is by far not only one of the strangest magnetic switches I've measured a curve for, but just any switch in general. These feel very much linear in hand but measure with a tactile bump curve and an absolutely massive separation between upstroke and downstroke curves. I have literally no idea how this happened.
