

Kailh Box Bamboo

Last Update: 01/25/2026

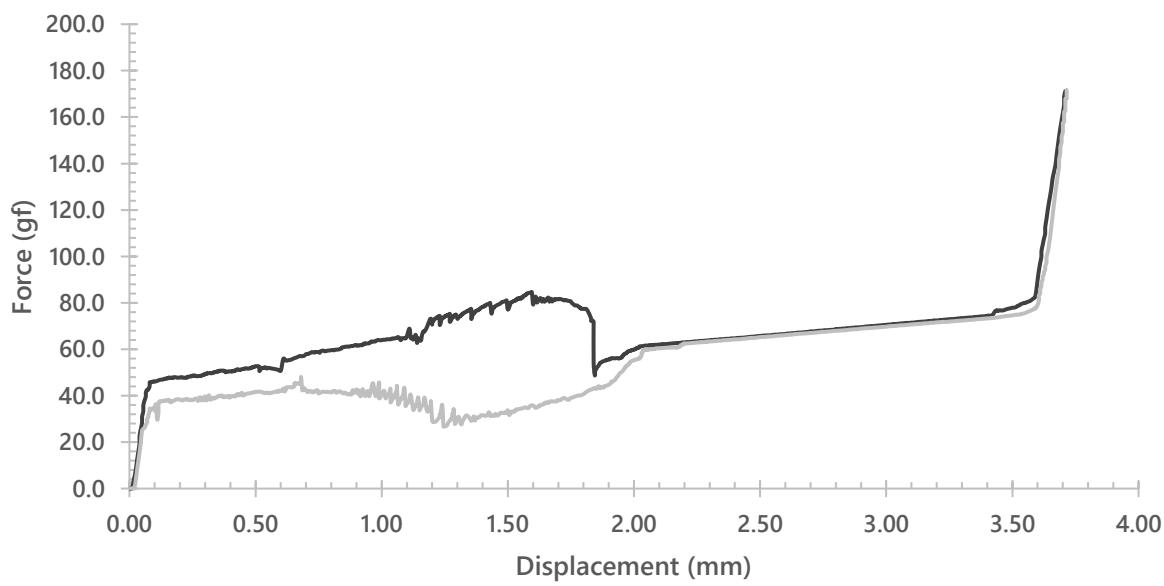

Kailh Box Bamboo	
<i>Switch Type:</i> Clicky	Kailh
Total Stem Travel	3.420 mm
Peak Force	84.6 gf
Bottom Out Force	74.6 gf
# of Upstroke Points	819
# of Downstroke Points	1005

Testing Notes

- While this force curve has the same general shape as most clicky switches with a clickbar, not all of them have the kind of up and down noise seen here in. While I'm not entirely certain what this is caused by, the fact that I've seen this more frequently in Kailh switches than not suggests that its something with their manufacturing process that induces this. Perhaps it is their factory lubing..?
