

## HMX Volume 0-T – Test 2

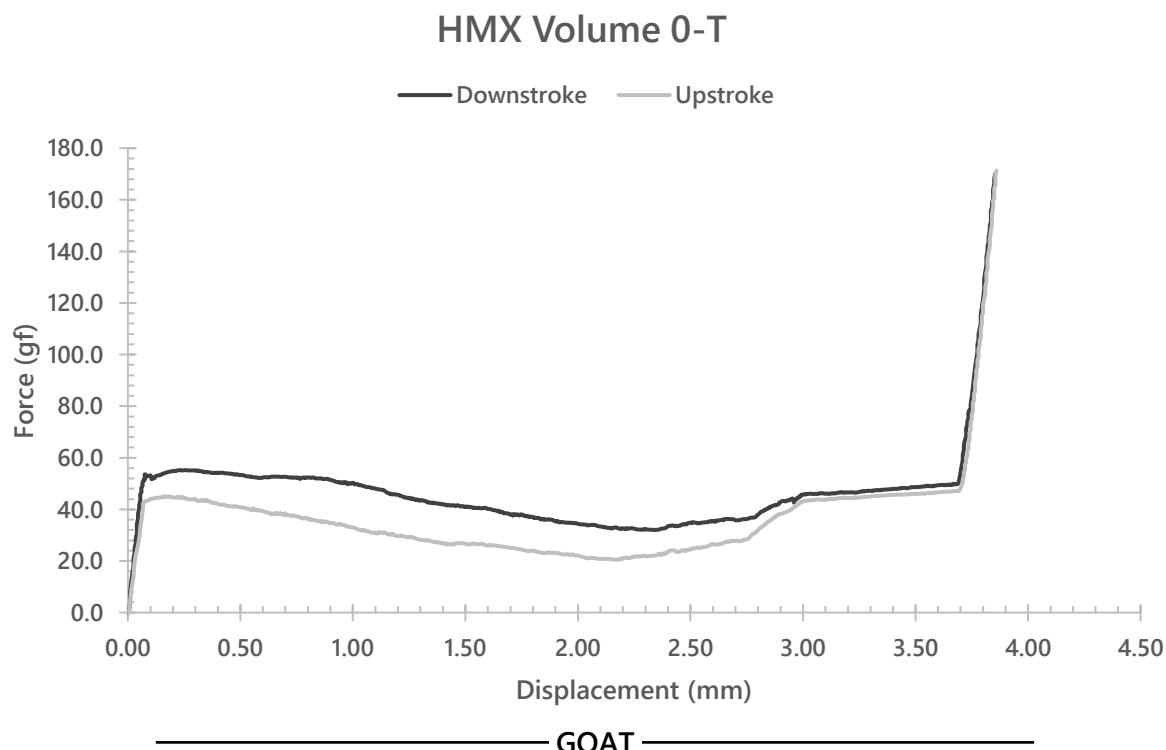

Last Update: 12/21/2025

HMX Volume 0-T	
Type: Silent Tactile	HMX
Total Stem Travel	3.685 mm
Peak Force	55.2 gf
Bottom Out Force	49.8 gf
# of Upstroke Points	781
# of Downstroke Points	1023

### Testing Notes

- This is a bit of an odd silent tactile force curve, largely because of the bumpiness of its tactile bump as well as the weird change in force right at the end of the bump leading into the linear post-travel section of the stroke.
