

## HMX Volume 0-T – Test 3

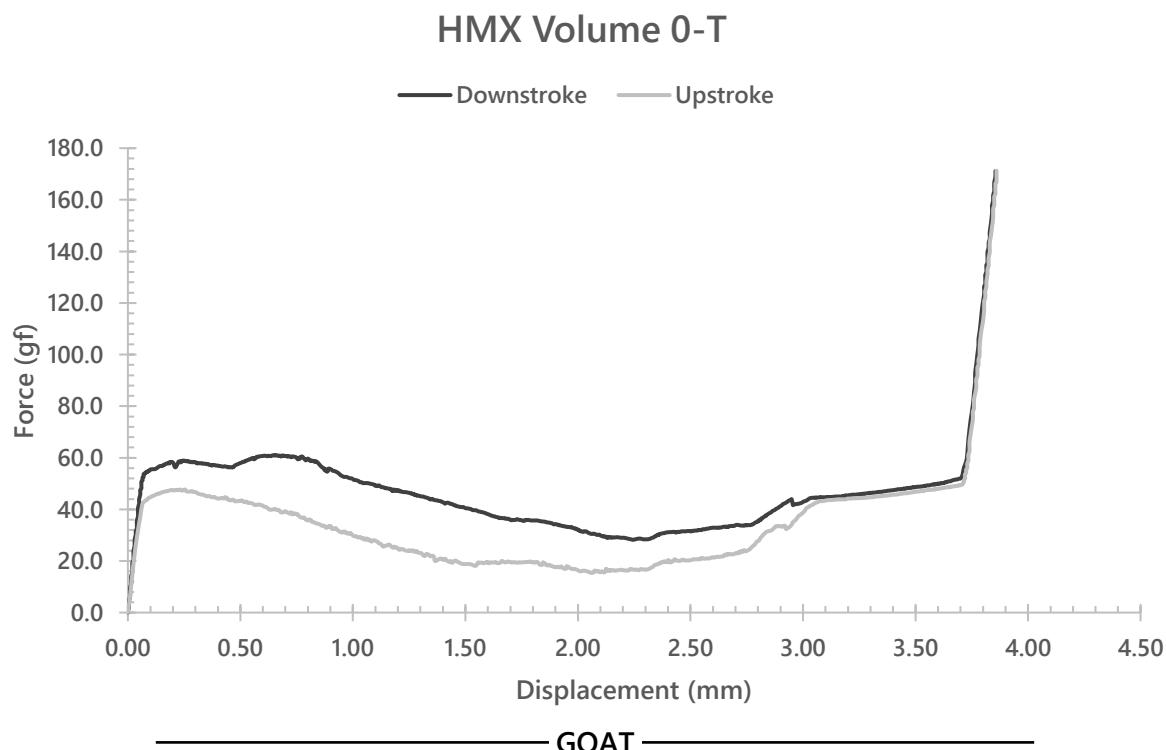

Last Update: 12/21/2025

HMX Volume 0-T	
Type: Silent Tactile	HMX
Total Stem Travel	3.700 mm
Peak Force	58.9 gf
Bottom Out Force	52.0 gf
# of Upstroke Points	873
# of Downstroke Points	990

### Testing Notes

- This is a bit of an odd silent tactile force curve, largely because of the bumpiness of its tactile bump as well as the weird uptick in force right at the end of the bump leading into the linear post-travel section of the stroke.
